What is Saturdays.AI?
A non-profit organization with the mission of **making Artificial Intelligence accessible to anyone**, through the creation of communities and training in **machine learning.**

W **AI Saturdays** being our main program, now available in 25+cities.

Our 3 pillars:

- ❏ **Project based collaborative learning.**
- ❏ **Implementation of projects with social impact.**
- ❏ **Diversity in people.**

Saturdays.AI

Impact and Community

1k+

Alumni

1,000+ students have learned to apply AI to their work and projects, from programming to design to business

100+

AI4Good Projects

From detecting refugee boats at sea to helping the emergency medical service... we have built all kinds of projects with impact

25+

Cities

Barcelona, Madrid, Lima, Alicante, Valencia, Sevilla, Monterrey, Santiago de Chile, Tucson, Dubai, Costa Rica ... and soon many more

participating in Saturdays.ai has helped our students to research in Harvard, Cornell... to work en Google, Microsoft.. or start their own startup using AI

Mission

Saturdays.AI is democratizing the use of Artificial Intelligence, creating an exponential movement that can be replicated anywhere in the world.

Saturdays AI is a :
1. community movement
2. pro bono
3. global

Committed to making education in Artificial Intelligence of the quality and rigor of the best Internet resources, accessible to all, and through projects with social impact.
What is AI Saturdays?

A program of **3 months each saturday**, to learn AI using the best resources and conducting impact projects accompanied by mentors.
Our pillars:
1. **Learn by doing**
2. **Community**
3. **Intensive Focus**

"Code 2 Learn"
During the first half of the program we learn the basics of machine learning through coding **exercises in a** collaborative manner, with the help of mentors.

"Build 2 Learn"
During the second half of the program , we build **end2end prototypes** of Artificial Intelligence.

Jan Carbonell 🚀 (at home 🏠) @jcllobet · 25 mar.

Ha sido una semana de trabajo muy intensa trabajando para que esto llegue a los hospitales más necesitados. Ya probado in vivo y trabajando con partners alucinantes para poder escalar al producción. Let's do this!!

🔘 The Open Ventilator @ventilator_open · 25 mar.

Presentamos un respirador artificial diseñado para cubrir las necesidades médicas de pacientes de COVID-19 con dificultades respiratorias graves

Es un dispositivo de bajo coste, probado in vivo, producción escalable y sin ánimo de lucro

Covid19 challenge

🏆 **1k€ cash** + **1k$ AWS credits + Perks** to the best proposal to tackle the Covid19 problem.
⏳ Deadline April 12th 2020 23.59h CET
⚡ Send your proposal to *info@saturdays.ai*

📋 Propose a Data Science based solution to fight Coronavirus crisis using Machine learning, Data Visualization, Deep learning, etc.

📥 The aim of this challenge is to contribute in the struggle with Covid19, using data to help society in the fields of health, clinical, logistics, government, etc.

🎯 Anyone with knowledge of data can participate, you only need to register. The submission (in english) must include*:
- Open source code on Github.
- Name of team members (you can do it solo or add them later).
- Project description.
- An explicative short video.
